Objective

A self-motivated and creative software developer providing high-impact web solutions for diverse industry organizations. I'm skilled in designing and developing multiple web-based applications incorporating a range of technologies. Aspiring to combine my architectural background with strong technical skills to excel as a software developer.

Education

Full stack Web Development Using .Net   04/2022 – 08/2022
Information Technology Institute (ITI) - Ministry of Communication and Information Technology (MCIT)

B.S in Architecture, Construction, and Project Management   09/2012 – 06/2017
Faculty of Engineering – Alexandria University GPA: 3.19/4.0

High School Education   2001 – 2012
Al-Oruba International School - American Diploma score 1940/2400

Professional Experience

Front end developer   08/2023 – present
Flojics Technology
Implemented and maintained frontend web applications utilizing modern web technologies such as Vue.js and best practices for user experience and accessibility. Designed various applications using Figma creating visually appealing user interfaces that align with client and user needs.

Architect   10/2019 – 04/2022
AGAP Consultant Office (Alexandria Group for Architecture and Planning)

Junior Architect and Interior Designer   11/2017 – 10/2019
ARTY Design Studio

Projects

Huqouq
- Freelancing website. I designed and developed the platform. utilizing Figma for UI/UX design (web and mobile) and Vue.js for web-frontend development. Integrated Vuex for state management, implemented routing, and used Firebase for real-time notifications and chat functionality.
Technologies used: Vue.js, Vuex, Tailwind, Firebase, Figma

OLX clone
- E-commerce website. I was responsible for implementing the front end using Angular, Typescript, and Bootstrap to create its components, filter and sort products, view product details, and route between pages while ensuring page responsiveness.
Technologies used: Angular, Typescript, Bootstrap, C#, Asp.Net, SQL, Entity Framework

Leather Wings
- E-commerce website. I implemented the front end using Vue.js to create its components, route between views, retrieve data from API, perform CRUD operations, and handle form validation.
Technologies used: Vue.js, Vue Router, bootstrap,npm Json-Server

Skills

Technical Skills (Tools and Frameworks)
VUE.js, ANGULAR, JAVASCRIPT, Html5/Css3, Bootstrap, Tailwind, C#, SQL, .Net 6, MSSQL Server, Asp.Net MVC, REST API, LINQ, Entity Framework, Git, Figma

Interpersonal Skills
. Ability to analyze and critically assess problems
. Imaginative and creative thinking skills
. Ability to communicate effectively as a team member
